

## New Sphergo Swivel™ — Innovative mop handle eases wrist strain. Ease of motion, better reach make life easier for cleaning professionals.

Repetitive stress injuries (RSIs) are a hazard of working as a professional cleaner, but it doesn't have to be this way. The Sphergo® line of ergonomic surface cleaning tools continues to improve working conditions for these vital members of the workforce with the new Sphergo Swivel™ mopping tool, specially designed to reduce RSIs.

- The Sphergo Swivel™ unique curved pole positions the mopping tool and body in a less stressful posture to reduce repetitive strain injuries
- Rotating ball handle allows for improved grip and control
- The curved pole paired with rotating ball on the handle allows for effortless smooth mopping "S" motion
- Sphergo Swivel™ curved pole allows for farther reach underneath low-clearance obstructions like beds, chairs, and desks relative to a tradition straight mop while eliminating awkward bending. Trapezoid frame design provides easier access into corners and along baseboards
- The base's rounded edges help prevent any damage to sensitive areas such as wood trim or wooden furniture legs
- Replaceable hook and loop strips
- Light Aluminum frame.

**Rotating ball handle** allows for improved grip and control.

## Cleaning is a Virtue with Virtu-Clean™ Disposable Cleaning Pads. Charge once, even coverage, and a cleaner floor.

Not all cleaning pads are equal. Absorbency rates, release rates, coverage, and linting can vary greatly, significantly impacting the finished product. Virtu-Clean™ Disposable Cleaning Pads are specially engineered for critical environments, giving you maximum coverage, cleaning, and convenience. Our disposable, single-use mop pads check all the right boxes – they hold more liquid, release that liquid at a controlled rate over a larger surface area, and reduce friction for more effort-free cleaning.
