

# TACKY ROLLERS

EP-1, PH-18, PR-12, PR-18

## DESCRIPTION

Cleanline™ Sticky Rollers remove contaminating particles from floors, walls, ceilings, tabletops and many other surfaces!

Our rollers are as simple to use as a common paint roller. Each replaceable cartridge consists of a roll of adhesive coated substrate perforated into removable sheets similar to those of a Cleanline™ adhesive floor mat. Simply roll the area to be cleaned as if you were applying paint.

When the roll becomes too soiled to pick up any more contaminants, simply peel off the top layer at perforations to expose a clean layer.

Designed for smooth surfaces and consists of LOPE film on a plastic, non-contaminating core.

- Smooth poly surface
- Plastic core
- Large core diameter
- Easy sheet removal
