Cardinal	
McKesson	

Sterile chemo-gloves are your first line of defense against the harmful effects of HD's. Our Protect 800™ chemo gloves are ambidextrous, powder free, and made of nitrile. These gloves are perfect for cancer centers, administration of chemo, handling of HDs, and for compounding chemo. The gloves are packaged in 100% poly for lint-free donning. The fingertips are textured for extra grip and have extended cuffs for added protection. Our Sterile chemo gloves have been tested for a range of chemotherapy drugs see below for details.

Designation	Standard
ASTM D6319	Standard Specification for Nitrile Examination Gloves for Medical Application
ASTM D5151	Standard Test Method for Detection of Holes in Medical Gloves
ASTM F1671	Standard Test Method for Resistance of Materials Used in Protective Clothing to Penetration by Blood-Borne Pathogens
ASTM D6978	Standard Practice for Assessment of Resistance of Medical Gloves to Permeation by Chemotherapy Drugs
