
OUR CORE VALUES

We at Acute Care Pharmaceuticals vow to bring exceptional service and the highest quality of products to our customers. As one of the premium suppliers of USP 797 & 800 products, we are continuously working toward solutions and products for the benefit of healthcare. In tandem with our expert advice and high-quality products, we deliver exceptional products for you and your team.

Integrity

We take great pride in transparency with our customers. We act in the best interest of the customer so healthcare providers can do what they do best.

Service Excellence

Our responses are swift and thorough. We aim to exceed the expectation of our customers.

Consistency

Our production and sourcing team is nimble to give customers the peace of mind they deserve. We are a reliable and supportive supplier to our customers.

- We are passionate about our industry and our goal is to secure business in a fair and honest manner.

- We strive to delight our customers with our friendly team and create trust between clients.

- We surround ourselves with individuals who possess an intense work ethic, high moral standards, passion for their work, and a commitment to both internal and external customers.

- We recognize the value of teamwork.

OUR HISTORY

Acute Care was founded in 1998 and was acquired by HOSPECO® in 2019. This acquisition helped to motivate the consolidation and creation of what became the Hospeco Brands Group later that same year. Acute Care Pharmaceuticals, with its Pharma-Choice™ and Protect 800™ brands, is a leading supplier of compliant, disposable medical products used in compounding pharmacies and other critical environments. All products are compliant with strict regulatory guidelines as required by USP <797> and USP <800>. Our products undergo testing and audits to ensure compliance. This unique dedication to compliance, coupled with its decades-long commitment to partner with hospital pharmacies, makes Acute Care a market leader. The company's various sterile disposable products are mandated for use in cleanroom environments. As such, Acute Care enjoys strong market penetration at hospital compounding pharmacies, standalone pharmacies, infusion, and cancer centers. Popular products include wipers, sterile alcohol, gloves, mop covers, and CAT kits. As part of the Hospeco Brands Group, Acute Care and Pharma-Choice™ brand are available to a range of customers with or without their GPO contract.

OUR MISSION

Acute Care Pharmaceuticals aims to be the USP 797 & 800 supplier of choice for healthcare. We exist to educate, support, and produce high quality products that are accessible to all healthcare providers. Our attention to detail and customer service has brought us to where we are now, at the forefront of healthcare with you

DISINFECTANTS AND CLEANERS

Pharma-D™

*Sterile pour tops available upon request

Pharma-D Surface Disinfectant™ is an EPA registered, validated sterile, one-step cleaner/disinfectant that is available in 16oz RTU spray bottles. Pharma-D™ is a quaternary ammonium designed to remove surface contaminants and disinfect hard, non-porous surface areas. It can be used as an additional disinfectant to use in rotation with Pharma-Hol™, in your cleanroom, glove box, barrier isolators or compounding areas.

FEATURES

PRODUCT #	PDQUAT797-16
MANUFACTURER	Acute Care Pharmaceuticals
DESCRIPTION	Validated Sterile Quaternary Disinfectant, Virucide, Fungicide
SIZE	16oz.
QUANTITY	12 bottles per case

DISINFECTANTS AND CLEANERS

DECON -SPORE™

*Sterile pour tops available upon request

Decon-Spore 200 Plus is an EPA registered peracetic acid and hydrogen peroxide solution that is used for a broad spectrum sanitizer, disinfectant, virucide, fungicide, sporicide, cleaner and deodorizer in the hospital and healthcare industries. Decon Spore 200 Plus solution cleans, disinfects, and deodorizes hard, non-porous hospital/medical surfaces in one step with no rinsing required. The product quickly removes dirt, grime, blood, and other organic matter commonly found in hospitals, in healthcare facilities, and on medical surfaces. When used as directed, EPA A.O.A.C testing has demonstrated that Decon-Spore 200 plus kills clostridium difficile spores in 3 minutes.

TACKY MATS AND FRAMES

Pharma-
Mat®

Pharma-Mats® are designed to be your first line of defense against contamination. Pharma-Mats® can remove up to 99% of foot borne contaminants which are a significant contributor of particles in a cleanroom environment. These tacky mats minimize the amount of contamination that enters a controlled environment by way of shoes, carts and other sources. PTM797 includes a 20" x 38" non-skid portable reusable frame with a 30 layer clear adhesive mat.

ENVIRONMENTAL TESTING PLATES AND KITS

TRIO.BAS™ MINI Kit

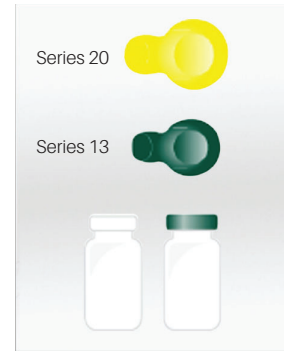

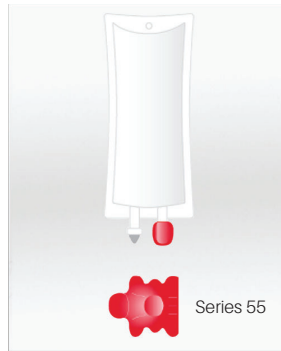

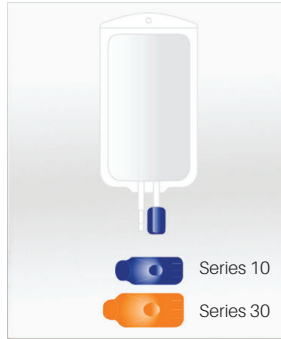

The TRIO.BAS™ instruments utilize the impaction method of air sampling. The air, passing through an aspirating head, impacts onto the appropriate agar plate that collects bacteria or other organic substances possibly present in the sampled area. All of the air samplers are lightweight, with an antibacterial techno-polymer shockproof body, have a long-lasting battery, and are IP65 protected from dust and water.

FEATURES

PRODUCT #	BAS153K
MANUFACTURER	Hardy Diagnostics
DESCRIPTION	TRIO.BAS™ MINI Kit, 100 Liters per minute, Petri Plate, with charging cable
PRODUCT TYPE	MINI Impact Air Sampler
COMPATIBILITY	Petri Plate
QUANTITY	One 20" x 38" Frame and one 18" x 36" Mat

STERILE APPAREL

Pharma-Frock

The Pharma-Frock™ is a sterile, low linting, and all-purpose frock for compounding in the cleanroom. The frock is made from a breathable, polyethylene-coated, polypropylene material. This gown is ISO class 5 compatible with elastic wrists, raised collar, and thumb loops attached. The Pharma-Frock is an ideal choice for compounding where sterile PPE is required. The gown has undergone various amounts of testing to ensure you are receiving a USP 797 compliant cleanroom gown.

FEATURES

PRODUCT #	PFROCK797
MANUFACTURER	Acute Care Pharmaceuticals
DESCRIPTION	Sterile Frock
SIZE	S-4XL
STERILITY	Gamma Irradiated
MATERIAL	Polyethylene Coated Polypropylene

STERILE APPAREL

Sterile Frock

These sterile frocks are made of a comfortable fabric that protects against various liquids and particulates. Each frock is individually packaged and sterilized to a 10 sterility assurance level (SAL) preventing workplace contamination and cross-contamination of products or materials. The low-linting fabric helps reduce the release of unwanted particulates in your workspace. Frocks are designed with tunnelized elastic that contains particle shed. Bound seams eliminate raw edges that can also create and release additional particulates. Fabric is tear-resistant and helps keep you cooler than many competitive fabrics.

FEATURES

PRODUCT #	CE11026CIS
MANUFACTURER	EnviroGuard
DESCRIPTION	Sterile Frock
SIZE	S-4X
STERILITY	Gamma Irradiated
MATERIAL	Proprietary Laminated Non-woven Fabric

STERILE APPAREL

Protect800 Chemo Gown

The Protect 800™ Chemo Gown is a sterile, low linting, and impervious gown for compounding chemotherapy & HDs in the cleanroom. The gown is made from a breathable polyethylene coated polypropylene material. This gown is ISO class 5 compatible with elastic wrists, mandarin collar, orange impervious taped seams, front closure, ties in the back, and thumb loops attached.
